DOHA asics gel lique australia , Dec. 11 (Xinhua) -- Doha will host a successful 2022 World Cup whenever it is held in winter or summer, said a top official at the Doha Goals Forum.

Hassan Al-Thawadi, Secretary General of the Qatar 2022 Supreme Committee, said, ""from the beginning asics gel kinsei 6 australia , we've always said we can stage the World Cup in summer,"" he said. ""The cooling system for the stadia will be very much part of our legacy. But if the football world or FIFA want it to be staged in the winter then we are happy and ready. If they want it in summer, then we are still ready.""

Al-Thawadi said he and his team were also more than prepared to rebuff any allegations of impropriety in their winning FIFA World Cup bid.

""We have always complied with FIFA regulations and these allegations have absolutely no basis,"" he added. ""Our bid team had to build credibility, showcase Qatar and deliver the messages. We worked very hard and were at every major event in the build-up to winning the right to host the tournament.

""Why did we win it? Without wanting to sound arrogant asics gt-2000 australia , it was because we had the best bid in terms of messages. We offered a compact World Cup with no long distance travel involved; we offered the perfect geographic location that allows three billion prime time TV viewers; and we offered a concept of modular stadia,"" he said.

Al Thawadi also underlined how the 2022 FIFA World Cup was a boost not only for Qatar but also for the entire Middle East.

""There are so many misconceptions about the Middle East and the World Cup in 2022 will go a long way to showing the world the friendliness, hospitality and sense of humor of the Middle East. It is a great opportunity for us all to come together.

""All tournaments have a legacy. The chance to show the world who we are and what we are - that will be our ultimate legacy.""

While the Brazilians mourned their failure at this year's FIFA World Cup, many Chinese found themselves in a similar position, lamenting the final results of the 2014 European Mahjong

Championship. Ending last week in France asics gel gt II australia , the two Chinese delegations to the championship only ranked 37th and 39th among the 51 participating teams.

Although it's difficult to pinpoint when this game began, mahjong is widely recognized as having its roots in ancient China. While the tile game has evolved over the centuries, its popularity has never faded. A fun leisure time activity that can be played almost anytime and anywhere, people can be seen playing mahjong everywhere from community parks to playing while floating around in a swimming pool.

However, with the disastrous defeat of the Chinese delegation asics gel ds trainer australia , netizens are wondering how one of Chinese people's favorite activities has become a source of shame.

Skill not luck

First, popular as it is among Chinese, most people only regard mahjong as a game rather than a sport, the latter of which actually has different rules compared to the more relaxed version played by most people.

According to a report on sport.qq, these strict rules help reduce the chances that someone can win out of sheer luck.

""The biggest difference between the sport and the game is that the former is more complicated to play... It looks like a simple math question asics gel atena RF australia , but is in fact a complicated matter of probability. It is a test of a person's intelligence and mentality,"" Hu Zhiwei, winner of the 2008 Mahjong Super Cup China District Finals in Guangzhou, Guangdong Province, told sport.qq.

""The Chinese players who took part in the championship do not represent the highest level of professional mahjong in China asics fuzex rush australia ,"" Sheng Qi, chief director of the United Association of Chinese Mahjong Sport and one of the rule makers for professional mahjong in China, told the Global Times.

The 80-year-old sports mahjong advocate explained that the delegations that joined the championship were made up of Chinese players who were only fans of mahjong and that they went to France out of personal interest rather than having been selected through national competitions. To his knowledge no players who currently hold high ranks in China actually took part in the event.

Raising awareness

While the game is extremely popular in China, very few people are aware of mahjong as a sport. In his column for news.ifeng, columnist Zhang Hansi joked that there were several ways to bring more attention to the sport of mahjong: having ""mahjong girls"" who dance during breaks and bringing in commercial sponsors asics dynamis australia , who could then have their brands put on the back sides of the tiles.

Joking aside, he pointed out that without high audience interest, mahjong as a sport will continue to suffer as there will be little money for awards which in turn means little incentive for quality players to participate in tournaments.

However a more key problem in getting sports mahjong off the ground is that unlike other sports which hold a high reputation with the general public, mahjong faces the major obstacle of being associated with gambling.

While some schools outside of China hold mahjong classes for even children, Sheng said that many government authorities in China treat the game as a source of gambling and are opposed to promoting it.

""Actually soccer also has a close link with gambling as well asics dynaflyte australia ,"" Sheng noted, stating that the idea of equating mahjong and gambling is a misconception among people that needs to be changed.
